

SALEM: QUALITY MATERIALS GUIDE

COMFORT AND WEATHER PROTECTION

Item: 3M® Slide-Out Seal

Application: Bulb slides onto the seal, eliminating the need for holes from fasteners. This also creates a "Triple Sealed Slide".

Item: Alpha® Seamless Rubber/Vinyl Roof

Application: Applied to roof with special adhesive.

Benefit: The vinyl mix allows for a white roof, rather than the "black" clay-backing used in traditional rubber roofs.

Item: Darko Underbelly

Application: Applied under the floor, spanning the entire trailer.

Benefit: Holds insulation in the proper position. Water

QUALITY MATERIALS GUIDE

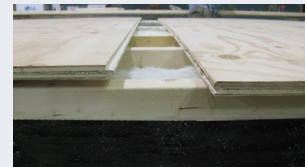

CONSTRUCTION MATERIALS

Item: Micro-Laminated Beam (LVL Beam)

Application: Placed over main slide-outs

Benefit: Provides strength; keeps the slide opening

Item: 5/8" Tongue and Groove Plywood Decking

Application: Applied on All Salem Floors with industrial-strength adhesive and counter-sunk ring-shank nails.

Benefit: Adds rigidity and strength to floors. Longer life

Item: Armstrong® Linoleum

Application: On floor and pass through storage in Salem and Cruise Lites where possible

Benefit: Armstrong is very durable, and does not scuff like

ELECTRICAL AND SAFETY

Item: 110 Volt - Protective Conduit

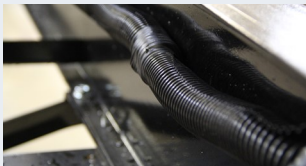

Application: Placed in pre-drilled holes through exterior studs for wiring.

Benefit: Protects wiring from interior and exterior

Item: Hurricane Straps

Application: Placed all throughout the trailer at potential stress points, such as wall to ceiling, floor to wall, compartment openings, etc.

Item: Fire Resistant Automotive LOOM

Application: Used around exposed wires (n/a on sensor wires)

Benefit: Protects wiring, and the coach due to it's abrasion

PLUMBING AND HEATING

Item: Insulated A/C Ducts

Application: Used in all ducted A/C Units.

Benefit: Insulated A/C ducts reduce moisture buildup in a "hot" roof, reducing the risk of mold/mildew in the roof.

Item: Tubing Shapers

Application: Applied to areas where plumbing bends, and corners as possible.

Benefit: Eliminates elbows which create leak-points.

Item: Zurn Fittings

Application: Applied when joining two separate pieces of plumbing.

Benefit: Our fastening rings are significantly wider than the

Item: Spin Cast - Polyethylene Holding Tanks

Application: Used in all Black and Grey Tanks.

Benefit: As compared with ABS, it is thicker and more durable. The spin cast process results in more strength in
